四、COMMON QUESTIONS

1.HOW IS THE TRANSLATION EFFECT OF THE TRANSLATOR?

- In daily communication, the accuracy of online translation reaches as high as 98%.
- The reading has reached the level of general announcers.

2.HOW DO WE CONNECT TO THE INTERNET?

- Connect to WiFi or mobile hotspot.

Note: The translator is not suitable for secondary authentication Internet, such as airport WiFi.

3.IF WE DON'T HAVE THE INTERNET, HOW DO WE USE THE TRANSLATOR?

- 17 languages currently supported translation machine precision offline translation: Jane/medium/English (us)/English (UK)/(add)/English (Australia)/English (print)/Spanish/Portuguese /Russian/German/Japanese/Korean/French/Italian/Dutch language.

4.COMPARED WITH MOBILE TRANSLATION SOFTWARE APPS, WHAT ARE THE ADVANTAGES OF TRANSLATION MACHINES?

- The accuracy of the translator is much higher than that of the mobile APP.
- It not only supports online translation, but also supports photo translation, recording translation and offline translation. (APP does not have this function)
- Support remote language recognition, dual microphone noise reduction, high speaker.
- Support two-way translation, 138 languages online translation, the operation is far more convenient than the APP.

5.WHAT IS THE STANDBY/USE TIME OF THE TRANSLATOR?

- The translator uses a 1000 mah polymer lithium battery, which can be used for about 3 to 4 hours in normal operation, and only needs to be charged for about 2 to 3 hours.

6.WHY CAN'T THE TRANSLATOR ENTER THE HOME PAGE/ CAN'T SHUT DOWN AFTER STARTUP?

- Hold down the power button for 15 seconds to forcibly restart the device. After the restart, the device can be used normally.

7.WHY DO TRANSLATORS OFTEN DISPLAY MESSAGES SUCH AS TRANSLATION TIMEOUT/UNRECOGNIZED?

- Translation Timeout: The WiFi network signal is too weak. We suggest switching to a stronger WiFi signal or trying to connect via your mobile hotspot.
- No recognition: The translator can not recognize the language, speak as close to the microphone as possible, raise the volume.
